

ROTH NORTH AMERICA

Fluidall, LLC
860 Johnson Drive
Delano, MN 55328

Dear Roth Distributor:

California Proposition 65

The California Safe Drinking Water and Toxic Enforcement Act, better known as Proposition 65, lists approximately 900 chemicals that are known to cause cancer and/or, developmental disabilities, birth defects or other reproductive harm. Proposition 65 requires manufacturers and distributors to provide a clear and reasonable warning before knowingly and intentionally exposing anyone to a listed chemical.

Roth North America (Roth Industries and Roth Global Plastics) is committed to providing safe products to our customers while minimizing and eliminating the use of any substance deemed hazardous in our product offering. We have reviewed certificates of analysis and SDS for raw materials that we use in manufacturing our products and for purchased materials included in our product offering as accessories packaged with our products or available as optional components. While it is not feasible to test raw materials and outsourced products for all of the chemicals identified on the Proposition 65 list, Roth Industries provides this warning in accordance with California Office of Environmental Health Hazard Assessment for the identified substances that may be present in the products of Roth North America. Exposure to these chemicals may be under the Proposition 65 levels of concern or zero, but out of necessary caution, we have decided to publish this notice.

<u>Product Description</u>	<u>Chemical</u>	<u>Risk</u>
Metallic products	Nickel Metal	Cancer
	Lead	Cancer
Radiant Installation Systems	Styrene	Cancer

Public Warning shall consist of a Point of Purchase posted notice: **WARNING: These products can expose you to chemicals such as Nickel, Lead and Styrene, which are known to the State of California to cause cancer. For more information, go to www.P65Warnings.ca.gov** to be displayed in prominent public view at all distribution/point of sale locations and warning labeling included in product sales and commercial literature. Product family specific labels shall be applied to parts/packaging associated specific content and related risk.

****PLEASE FORWARD THIS NOTICE TO ALL DEPARTMENTS/BRANCHES WITHIN YOUR ORGANIZATION****
